## WHY?

Local software development has rapidly expanded, with new Meetups and technologies appearing regularly. This cross-domain conference is aiming to bring implementers together, to break down technology silos and to celebrate IT diversity in the region.

## WHAT?

### Northern Ireland Developer Conference

A single day conference, mostly technical talks, and all focused on software development or related areas. We will have a range of activities beyond traditional talks also.

0930-1830, 10 June 2017

## WHEN?

Peter Froggatt Centre  
Queens University  
Entrance via Main Quad

## WHERE?

Inquiring minds, whether fresh or experienced, and especially under-represented groups in the industry.

## WHO?

### KEYNOTE

We are glad to welcome **Martin Woodward** from **Microsoft** as our keynote speaker. Martin focuses on DevOps for VS Team Services and TFS, and helped drive Microsoft's move to open source as a former Executive Director of the .NET Foundation.
